

2020 Monitoring Report

Objective:

The objective of this monitoring report is to satisfy ABP's certification requirements and communicate operations to stakeholders.

FOREST MANAGEMENT

Estate – Forest Management Unit (FMU) (haⁱ)

Area type	2020
Plantations (<i>Eucalyptus globulus</i>)	79,718
Plantations (minor species)	126
Area awaiting replant	5,974
Total plantable area	85,818
Fire breaks	5,079
Remnant vegetation	10,536
Wetlands & wet areas	710
Areas of High Conservation Value (HCV)	5,514
Other (Utilities, easements, leased to third party)	3,394
Environmental projects	492
Total non-plantable area	25,725
Total area managed (total plantable area + total non-plantable area)	111,543

Data source: Land Resource Management

Plantation activities (ha)

	2020
Total establishment area (ha)	6,795
Harvested area (ha)	2,910

Data source: Land Resource Management

Harvested volume by product (GMTⁱⁱ)

	2020
Total harvest (<i>Eucalyptus globulus</i>)	619,460

Data source: Yardboss Bush Report

Non-timber forest products (seed orchard)

	2020
Seed harvest	5,163,788

Data source: Seed Supply and Deployment Summary

Conversion

	2020
Area of native vegetation converted to plantation use	0

Data source: Land Resource Management

ENVIRONMENT

Natural hazards (fire)

	2020
Total fire damage (ha)	126
Average fire severity (low, medium or high)	
Western Australian estate	low
Green Triangle estate	high

Data source: Integrated Management System

Incidents

	2020
Environment	
No. of incidents	15
Health and safety	
LTI - contractors	2
LTI - staff	0
Total lost time (days)	5

Data source: Integrated Management System

High Conservation Value (HCV)

	2020
No. of plantations containing HCV	82
Total no. of HCV areas (ha)	127
Green Triangle estate	
Average condition of HCV areas (using Keighery condition scale)	Very good
Area of revegetation projects (ha)	58.4

No. of HCV areas where strategies/actions have been implemented	44
No. of HCV areas where identified strategies/actions have been effective	41
No. of HCV areas where additional monitoring has been performed	11
No. of HCV areas where weeds have been treated	26
No. of HCV areas included in fox baiting program	14
Western Australian estate	
Average condition of HCV areas (using Keighery condition scale)	Very good
Area of revegetation projects (ha)	13
No. of HCV areas where strategies/actions have been implemented	10
No. of HCV areas where identified strategies/actions have been effective	10
No. of HCV areas where additional monitoring has been performed (cameras)	6
No. of HCV areas where weeds have been treated	5
No. of HCV areas included in fox baiting program	5

Data source: Natural Values Management Register

Non-timber forest products

	2020
No. of agistment agreements	46
No. of bee licenses	4
No. of hay licenses	7
No. of residential tenants	6

Data source: Access Agreements Register

SOCIAL

Number of ABP staff

	2020
Males	78
Females	20

Data source: Payroll HQ

Local services

	2020
No. of local training providers used - GT	6
No. of local training providers used - WA	6
No. of local contractors - GT	50
No. of local contractors -WA	36
No. of local suppliers -GT	88
No. of local suppliers- WA	55

Data source: Stakeholder and Training Registers

Community

	2020
Stakeholder communications	
No. of community meetings	0
No. of complaints	4
No. of notifications	135
No. of requests	2
No. of sponsorships – Green Triangle	4
No. of sponsorships - Western Australia	5

Data source: Stakeholder Register

ⁱ Ha = hectares

ⁱⁱ GMT = Green Metric Tonnes

No. = Number
